What is the "Windows Time (W32Time)" system service on Windows Server 2008 R2? "Windows Time (W32Time)" is a Windows Server 2008 service that provides time synchronization on all clients and servers in the network. If this service is not running, the time on the server will drift out of sync with the time on the clients. - Rank: 111; Updated: [Source](#) 2017-11-11 18:54:43 ->
