When using "@(...)" expressions in XML attributes as part of a policy statement, what are the rules about string quotations? If you are using a "@(...)" expression in an XML attribute statement, and string literals are used in the "@(...)" expression, the system will parse the string literals as XML. This is a known issue in the system. See [Issue 108](#); Updated: 2017-11-12 9:14:53 ->
