How To Delete Multiple Rows from a Table in MySQL? You can delete multiple rows from a table in MySQL the same way as deleting a single row, except that the WHERE clause will be used to specify the rows to delete. The tutorial exercise below deletes 3 rows from the fyi\_links table: mysql> DELETE FROM fyi\_links WHERE fyi\_id < 3; - Rank: 242; Updated: 2018-01-08 ->
